

STAFF INFORMATION SHEET

JUNE 2017

Shared Home Team Roster Management Review

Under our new shared home team roster management arrangements, we will from time to time get Coordination Assistants to review how these arrangements are going.

The first of these reviews will occur with the **41 Hogg Street support team.**

From Wednesday, June 28, 2017 the Hogg Street team need to run all roster relief changes through Coordination Assistant, Des Donohoe. This does not mean the team management decisions will be changed but it gives Des the chance to talk to people about the change they want to make and feed back information to the management team.

All proposed roster changes including the swapping, giving up of shifts and the acceptance of shifts need to be run by Des.

We will let you know when the review finishes and the team revert to self-management again.
