

Sarge.

I Am

down

at

The

ART

Center

Jackson Street

Sgt N

Sarg

Im going
To have an
Exhibition
This year
I hope you
Come look

Well that's right

We talk about colour a lot

Because what I see and what you see are
different

Dark colours confuse me most, blue ,brown,
green, purple

We try different things

I like to have new directions it keeps me on my
toes it does yeahhh

I like it when we take it out of the press

The scariest moment I think its gonna make it
or break it

We put it on the floor and I peel the corner
of the print with my foot and I feel it sticking
And I keep pulling and then it is free...

OH LOOK AT THAT!

WE FILL THE ROOM WITH PRINTS

I don't need a clock

I know how long we work 'cos the bus stop

Is out the front

I like to watch the people I know catch the bus

And I like to listen to bob Dylan

Im tuned in don't panic

At work we spread everything on the floor,
We use up all the the space, we do.

Bec is left handed like me

Well im left footed,does that make sense?

I just notice that a lot,who is left handed.

Well we make a bit of a plan together,
What we are going to do what colour which print
If I need to cut anymore all that stuff yeahhh

Well then we set to work

How do you want me to put that....

Well the best part is rolling the ink to put on
the lino

That's right it is too

We have a big glass plate on the floor

I grab the roller with my foot and work it

I have to get the ink even on the lino or bec
gets cross_____

Not really, but I do

Then we print

The press is an old beast

Its hard work

we always talk about getting a new one

Its usually a monday
When I go printing
That's a free day
No carers so lots of time to work
Im tuned in,don't panic
Bec says she'll pick me up early
I cooked snags for breaky today,I did
On the George forman
I pack my Collingwood bag
I need my linos,at the moment we are working on
Two at a time,which is good.
My tools,ive had the same ones for years
I wrap a bit of tape around the ends
So I don't get sore between my toes.
I never cut myself,just the lino.this new lino
is good though, it is
Not like the stuff we used to use at tafe
We used to have to heat that up to make it soft
We did, bloody hell
Anyway we load it into the car
We take music and paper and inks and a camera
Drawing things lots of STUFF
Bec does my seatbelt sometimes she forgets!!!
